Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 November 2007.
- 2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

1. This action is in response to applicant's amendment received on September 25th, 2007 and to applicant's supplemental amendment received on November 20th, 2007.

Information Disclosure Statement

2. The Information Disclosure Statement (IDS) submitted on September 13th, 2007 is acknowledged. The IDS meets the requirements of 37 CFR 1.97 and 1.98. Therefore, the references therein have been considered.

Claim Rejections - 35 USC § 102

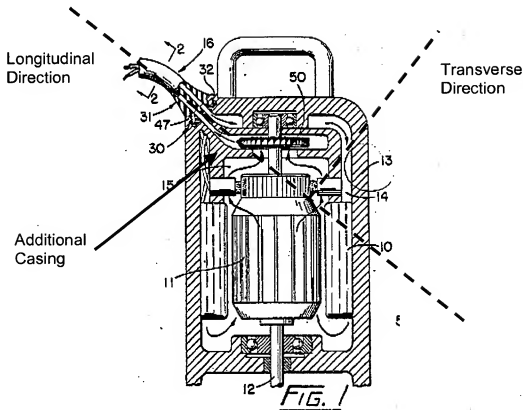

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-9, 11, and 13-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Modrey (2,776,385) for the same reasons set forth in paragraph 9 of the previous office action mailed June 26th, 2007.

Regarding the amendment to claim 1, it should be noted that the intake nozzle (in the vicinity of 32) extends in a longitudinal direction (designated below). The cooling conduit (in the vicinity of 15) is separated from the housing in a direction that is transverse to the longitudinal direction by an additional casing. The casing is located between the intake nozzle and the housing in the transverse direction.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Modrey (2,776,385) and Admitted Prior Art for the same reasons set forth in paragraph 12 of the previous office action, *supra*.

Response to Arguments

6. Applicant's arguments filed September 25th, 2007, with respect to the Strozel reference have been fully considered and are persuasive.
7. Applicant's arguments filed September 25th with respect to the Modrey reference have been fully considered but they are not persuasive.

Applicant contends that Modrey lacks the feature that the cooling conduit is closed off in direct proximity to at least one intake nozzle from an interior of the housing because the ventilation channel is part of the interior of the housing. However, as stated in the previous office action, *supra*, the additional casing is integrally formed with the housing, yet still provides another casing within the device that is separate from the outer housing 13 as figure 1 shows. The additional casing closes off the cooling conduit 15 from the interior of the housing.

For the reasons above, the grounds of rejection are deemed proper.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
9. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
